PLASTIC WAX & GREASE REMOVER

INSTRUCTIONS FOR USE:

1. Spray the surface to be cleaned
2. Scrub with a cloth, sponge or brush
3. Rinse with water if necessary
4. Dry with a clean cloth

Can be used in parts washers, industrial washing machines or high-pressure washers. Whatever system you are using, you need a mechanical action (rag, sponge, brush, air circulation, ultrasonic equipment) to break down the dirt, oil or grease.

ADVANTAGES:

Non – poisonous
Non – flammable
No hazardous or dangerous ingredients (solvents, phosphates, acids or silicones)
Biodegradable
Breaks down and decomposes all oil, grease and dirt from any surfaces
Removes unpleasant odors and has a fresh smell
Makes the cleaned surface antistatic
