FRIENDLY EARTH CLEANSER has been formulated using water with less than 20ppm solids.

If customers dilute **FRIENDLY EARTH CLEANSERS** it should be done with distilled water or Carbon filtered water or reverse osmosis purified water, with known solids less than 25 ppm.

Anything above this level will reduce the effectiveness of the **FRIENDLY EARTH CLEANSER**.

FRIENDLY EARTH NATURAL CLEANSER

INDUSTRIAL STRENGTH

USERS GUIDE

ADHESIVES: Spray and allow to soak for 15 – 20 mins. Agitate with a brush or fingernail and rinse clean.

GREASER / HEAVY DUTY CLEANSER: When using Friendly Earth Natural Industrial Strength Cleanser as a Degreaser or Heavy Duty Cleanser it is best to allow the Cleanser to sit on the surface of the material being cleaned for as long as possible. Do not let dry. Agitate with a cloth, sponge or brush and then rinse with fresh water. If material is heavily soiled soak in Friendly Earth Natural Industrial Strength Cleanser for a min of 30mins.

FISH ODOUR/RESIDUE: Spray area. Allow to sit for 2-5 mins then rinse thoroughly.

FURNITURE REFINISHING: To remove varnish or paint, apply **Friendly Earth Natural Industrial Strength Cleanser** with a cloth or brush. Let sit 30 minutes or longer. Wipe with a wet terry cloth. You may need to use a fine grade steel wool to get into crevices. As with any paint or varnish remover, multiple applications may be necessary. This non-fuming, non-chemical or solvent method makes it possible for even the most chemically sensitive individual to get creative with furniture and antiques.

OLD / ANTIQUE PAINT REMOVAL: To remove varnish or paint, use **Friendly Earth Natural Industrial Strength Cleanser**. Apply with a cloth or brush. Let sit for 30 minutes or longer. Wipe with a wet terry cloth. You may need to use a fine grade steel wool to get into crevices. As with any paint or varnish remover, multiple applications may be necessary. Ideal for remodeling homes for elderly, infirm or anyone that cannot tolerate strong chemicals.

PRESSURE WASHER: Apply **Friendly Earth Natural Industrial Strength Cleanser** directly to the material being cleaned using a sprayer or the Pressure Washer applicator and let sit for a period of time (min 2mins) before pressure washing off. If using through the dilution chamber of the pressure washer dilute 1 part Industrial strength Cleanser to 3 parts water.

PERMANENT MARKER STAINS: Spray on stain(will not remove some set in stains id previously laundered). Rub vigorously. Wash with **Friendly Earth Natural All Purpose Cleanser** according to laundry directions.

TIRE MARKS/ CLEANER: Spray marks or tires, let sit for two mins then scrub with a stiff brush. Rinse off.

TAR: There is no better tar remover toxic or not. Spray, let sit two mins spray again then scrub with damp cloth or wet stiff brush and rinse.

TREE SAP: Spray let sit for a few minutes, spray again, agitate with brush wipe clean.

VARNISH REMOVER: To remove varnish or paint, apply with a cloth or brush. Let sit 30 minutes or longer. Wipe with a wet terry cloth. As with any paint or varnish remover, multiple applications may be necessary.

WAX REMOVAL: Chill, crack and peel off excess wax. Then spray with Friendly Earth Natural Cleanser. Let sit for 5 minutes then wash clean

If on delicate fabric use **Friendly Earth Natural Personal Use Cleanser**

FRIENDLY EARTH NATURAL CLEANSER

ALL PURPOSE

USERS GUIDE

ALL-PURPOSE CLEANER – For normal jobs, spray and wipe. For tough jobs, spray on, agitate the molecules with a brush and **let stand for two minutes**, then wipe clean

APPLIANCES – Spray, **let sit for 30 seconds**, then wipe.

ASH TRAYS – Empty excess ashes, spray with solution and rinse clean.

AUTO EXTERIOR – Work on a cool surface in shade. Remove bugs, bird droppings, tree sap and tar by spot spraying, **wait 30 seconds**, and then wipe with damp cloth. Then fill a bucket with water and add 4-6 ounces of **Friendly Earth Natural All Purpose Cleanser**. Use a sponge or rag to wash vehicle, or use a hose attachment containing solution to spray directly on vehicle. Use sponge to agitate. Rinse clean with hose. **Friendly Earth Natural All Purpose Cleanser** run-off does **not** harm environment. **NOTE: Friendly Earth Natural All Purpose Cleanser is an oil emulsifier that emulsifies wax. Always use the all purpose cleanser to add to the water solution, and rinse immediately and thoroughly with plenty of water to avoid stripping the wax finish off the painted surfaces of your car.**

AUTO INTERIORS – Note: for Leather Interiors see section on **LEATHER**. Spray solution on all surfaces first to allow grime to begin breaking down while you work. Use a small brush or toothbrush to get into crevices. Wipe each surface with damp towel or cloth (spray with distilled or other purified water for greater cleaning power). Scrub where necessary. Follow with dry cloth. For fabric upholstery, use an aerating foamer pump dispenser with **Friendly Earth Natural Cleanser Personal Use** Brush clean in a circular motion. Lift stains by spot cleaning and pressing with clean cloth, alternating damp cloth with dry cloth.

AUTOMOTIVE PARTS – Soak in a container filled with solution. Wipe or brush clean.

BATHROOMS – **Friendly Earth Natural All Purpose Cleanser** can be used for every corner of your bathroom!

BEACH TAR – Spray directly on tar. Rub with fingers. Rinse off with water! At home, use an old rag or paper towel to wipe tar off feet, shoes or other surfaces after spraying with **Friendly Earth Natural All Purpose Cleanser** An aerating foamer pump dispenser is a great idea for the car anyway. Don't leave home without it!

BOATS & YACHTS – For areas coated with carbon or oil, spray with **Friendly Earth Natural All Purpose Cleanser** and leave up to 30 minutes. Wipe with wet terry cloth. For other areas, wait from 30 seconds to 2 minutes before wiping, depending on the type of surface. For vinyl seats, spray with **Friendly Earth Natural All Purpose Cleanser** and wipe with a damp cloth. Heavy buildup may require some scrubbing with a brush.

BRASS – Great for removing oils left from hands on railings and other brass surfaces. Wipe with a damp cloth (sprayed with solution). Dry thoroughly.

BRICKS – Wet area to be cleaned. Spray solution directly on bricks or dip a stiff brush into solution and brush onto bricks. Rinse. Depending on the amount of grime or soot on bricks, use **Friendly Earth Natural Industrial Strength Cleanser**.

BUG STAINS – Spray the stain. Let sit for 30 seconds and then wipe it with a wet cloth.

CAULKING, DRIED – Spray on, let sit for 60 seconds, then wipe with a damp terry cloth.

CEMENT – Wet area to be cleaned. Spray with **Friendly Earth Natural All Purpose Cleanser**. Use a stiff brush to scrub area. Rinse. Depending on the amount of grime, etc. on surface, **Friendly Earth Natural Cleanser Industrial Strength** may be needed.

COFFEE MACHINES – In your empty coffee pot, add 2 oz. **Friendly Earth Natural All Purpose Cleanser** then fill remainder of pot with water. Pour into coffee machine and turn on as though brewing coffee. When done, run a pot of plain fresh water through the machine.

COPIER TONER – Spray surface with solution and wipe with cloth. If toner stain is on an area of the printer or copy machine that should not get wet, spray solution onto cloth first and then wipe area to be cleaned. Dry with a dry cloth.

COUNTER TOPS – To remove dirt and grime, spray surface, wait a minute, then wipe off with a wet cloth or sponge. Dry off if desired. To remove stains, scrub with a scrub pad or stiff brush before wiping off.

DECKS, WOOD – Wet deck. Spray and let solution sit for several minutes. Scrub deck with stiff brush. Repeat if necessary.

DISHWASHERS – Did you know that Dishwasher Detergents are the # 1 cause of childhood poisonings? Why eat on dishes that have caustic chemical residues? Use "*ultra safe* **Friendly Earth Natural All Purpose Cleanser** right in your dishwasher! Pre-spray heavily soiled or greasy dishes with solution as you load them. Then Use 1-2 ounces of solution in reservoir on dishwasher door. Amount of **Friendly Earth Natural All Purpose Cleanser** solution depends on your water – use more for "hard" water, which has more minerals.

DRAINS – Pour 8 to 12 ounces of the **Friendly Earth Natural All Purpose Cleanser** solution into the drain. Let sit 2 to 5 minutes. Plunge with a suction plunger. Rinse. Repeat as needed. Works well on grease clogs. Will not remove or dissolve hair.

DRIVEWAYS – To remove oil stains from driveways or garage floors, spray with water first, then spray with **Friendly Earth Natural All Purpose Cleanser**. Let sit several minutes. Rub briskly with a stiff brush. Rinse.

ENGINES – The engine should not be hot. Hose off with water. Spray solution over all surfaces of wet engine. Let sit for up to 30 minutes, then scrub with a stiff brush to agitate the build up. Use strong water pressure to rinse. For heavy duty engine cleaning, use **Friendly Earth Natural Industrial Strength Cleanser**.

FANS – Remove protective grille, spray, let sit a minute, wipe.

FARM EQUIPMENT – Follow manufacturer's instructions, if any. Spray and wipe, scrub with stiff brush, if necessary. If an unpainted part needs to be cleaned or degreased, put **Friendly Earth Natural All Purpose Cleanser** in a bucket or tub to cover part, immerse part in solution and let soak until it can be easily wiped clean. cloth or paper towel for a sparkle.

FENCES – Wet with water, then spray and rub briskly with a stiff brush. Cross-reference with steel / wood / plastic.

FIBERGLASS – Spray, wipe and rinse.

FLOOR WAX REMOVAL – Spray floor liberally with solution, let sit for a few minutes, scrub with a stiff brush, rinse and mop dry.

FOOD PREP AREAS – Spray liberally and wipe clean.

FOOD STAINS – Spray towel or rag with solution. Wet stain slightly with water first. Rub stain gently with solution-dampened towel. Agitate with fingers or brush if needed. Rinse and blot to lift stain. As with all stains and spots, keep a clean cloth behind the spot as you work to lift stain from the front. The sooner you apply **Friendly Earth Natural All Purpose Cleanser** the better. Keep sample spray bottles in car and purse to always be ready!

GARAGE FLOORS – To remove oil stains from driveways or garage floors, spray with water first, then spray with **Friendly Earth Natural All Purpose Cleanser**. Let sit several minutes. Rub briskly with a stiff brush. Rinse.

GARBAGE CANS – Spray, let sit at least one minute, and wipe clean. For tough spots, spray and scrub. After cleaning, spray your trash bags, barrels, buckets and boxes to keep insects at bay and help control odors.

GARDEN EQUIPMENT – Spray and wipe.

GREASE – **Friendly Earth Natural All Purpose Cleanser** works GREAT on grease! Spray, soak, wipe and rinse. Repeat if necessary. May require using **Friendly Earth Natural Industrial Strength Cleanser**.

GRILLS – Spray and let sit a minute or two. Using a wire brush or stiff-bristle brush dipped in water, scrub briskly. You will love the oil and soot emulsifying properties of **Friendly Earth Natural All Purpose Cleanser**.

GROUT – Spray solution into grout lines. Allow to soak for 2 minutes or more. You may or *may not* need to scrub! Rinse thoroughly. For lighter colored grout, use a lighter solution.

HARD WATER STAINS – Spray and let sit for a few minutes, scrub with a stiff brush.

HEARTH STONES – Clean the soot by spraying and wiping.

HEEL MARKS / SCUFFS – Spray on scuffed surface, let solution sit for a minute or two, and wipe clean with a cloth. May need to scrub with a stiff brush.

INDUSTRIAL MACHINES – Spray with solution. Scrub and rinse. May require **Friendly Earth Natural Industrial Strength Cleanser** for seriously greasy surfaces.

INK – Spray on stain (will not remove some "set-in" stains if previously laundered). Rub vigorously. Wash according to **LAUNDRY** directions.

KITCHEN APPLIANCES – Spray, let sit for 30 seconds, then wipe clean.

MACHINERY – Follow manufacturer's instructions, if any. Spray and wipe, scrub with a stiff brush, if necessary. If a part needs to be cleaned/degreased, put solution in a bucket or tub to completely cover part, immerse part in solution and let soak until it can be easily wiped clean. See also **INDUSTRIAL MACHINERY** and **AUTO PARTS**.

MARKERS – Spray on stain (will not remove some "set-in" stains if previously laundered). Rub vigorously. Wash according to **LAUNDRY** directions.

METAL – Spray and wipe with a cloth, scrub with a stiff brush if necessary.

MOBILE HOME / MOTOR HOME – Spray bug stains, tar, and heavily soiled spots with solution. Agitate with brush to loosen. Then put 3-4 ounces of **Friendly Earth Natural All Purpose Cleanser** in a gallon bucket of water. Sponge or brush on surface. Rinse clean. See **R/V's**.

MOTOR OIL – Works like **magic** to emulsify the oil! It is safe for hands and equipment. Because it does not require hot water to cut grease, **Friendly Earth Natural All Purpose Cleanser** is extraordinary for wildlife cleanup after an oil spill because it is safe for mammals and other aqueous (water-based) animals.

ODORS – Spray surface emitting odor, let solution sit for a minute or two, and wipe clean.

OIL, OIL SPILLS & OIL SPOTS – Spray and let sit, rub with brush, then wipe or mop up with a damp cloth or rag. May need **Friendly Earth Natural Industrial Strength Cleanser** for heavy spills/spots.

OUTDOOR FLOORS – Spray and mop.

OXIDATION ON CARS – Use the solution with lots of water (as per regular car washing) to remove oxidation and heavy grime.

PAINT AND WOOD STAIN – Artists and home improvement buffs alike love the gentle oil-emulsifying power of **Friendly Earth Natural All Purpose Cleanser**.

PLASTIC – Spray, wipe and dry.

POOL ADDITIVE – Use **Friendly Earth Natural All Purpose Cleanser** solution (1-gallon per 10,000 gallons of water) to prevent buildup.

POOL FILTERS – Instead of throwing out your dirty pool filters, soak them in **Friendly Earth Natural All Purpose Cleanser** solution and rinse thoroughly.

POOLS – For cleaning empty pools, spray, wipe and rinse. Scrub with a stiff brush, if necessary.

PRINTING PRESSES – (MAY NEED THE STRONGER **Friendly Earth Natural Industrial Strength Cleanser**) Spray and wipe clean.

RESTROOMS – Spray, let sit 30 seconds. Wipe with a damp cloth or sponge. Scrub with a brush if heavily soiled. Rinse. Wipe with a dry cloth.

R/V's – **Friendly Earth Natural All Purpose Cleanser** is a great overall vehicle cleaner because of its oil emulsifying properties. Use 3-4 ounces per gallon of water. Also, use spray solution to remove bugs, tar and other grit. Sponge clean, then rinse.

RUST STAINS – Spray on stained surface, let solution sit for a minute or two, and wipe clean. May need to scrub with a stiff brush.

SMOKE DAMAGE - (MAY NEED THE STRONGER **Friendly Earth Natural Industrial Strength Cleanser**) Spray surface, wipe with a cloth or agitate with a stiff brush. Rinse. Repeat if necessary.

SOOT – Spray surfaces, wipe with a damp cloth. Use a stiff brush if heavily soiled.

SPAS & HOT TUBS – Spray on empty hot tub, wipe with a cloth, scrub with brush if necessary. As an additive, use **Friendly Earth Natural All Purpose Cleanser**(1-pint per 1,000 gallons of water) to prevent buildup.

SPOTS & STAINS – See instructions for specific stains (rust, blood, ink, etc.) and surfaces (fabric, wood, tile, etc.). Follow stain protocol: Use one paper towel behind stain. Wet stain lightly with water (choose the water source with the least amount of minerals.) Spray solution on a second paper towel. Dab carefully directly on the stain. Follow with more water and a clean paper towel. Do not rub. Press to remove excess water and lift stain from material.

STEEL – Spray and wipe with cloth or scrub with brush.

STUCCO – Spray, scrub with a stiff brush, and rinse clean. For mildew, leave on longer before wiping and rinsing.

TILE – Spray, scrub with a damp cloth and rinse clean. **Friendly Earth Natural All Purpose Cleanser** helps rid your bathroom of soap scum, effectively destroying a breeding ground for mold and mildew!

TIRES – Spray on, then agitate with a stiff brush and rinse off with water. Buff dry.

TOBACCO STAINS – Spray, let sit for 30 seconds, agitate with small brush, rinse.

TOILETS – Spray seat, bowl and sides, including the floor around the toilet. Scrub inside with a brush. Wipe seat, sides and floor with a damp cloth. If your water has a lot of crud in it, try adding 2 ounces of **Friendly Earth Natural All Purpose Cleanser** to the tank. Let it sit for 30 mins or over nite then flush.

TOOL BOXES – Empty toolbox. Spray solution liberally into corners and crevices and let sit while you wipe and organize tools. Dry inside toolbox. Spray and wipe dry again if necessary.

VENTS – Bathroom, Kitchen, outdoor, barn, - Remove vent cover, spray, let sit, then wipe. Rinse with water.

WALLPAPER STRIPPING - Using a garden sprayer filled with solution, spray walls and let sit for several minutes so solution can soak through wallpaper and dissolve glue. (By the time you finish spraying all the walls, you can start scraping where you started spraying). Wallpaper will peel off in large sheets. Use a paint scraper if necessary.

WATER DAMAGE - Spray and let sit for a few minutes, scrub with a stiff brush.

WINDSHIELDS / WINDSHIELD WIPER FLUID - Fill your vehicle's wiper fluid container and add **1 ounce / 30ml / 2 Tablespoons** of **Friendly Earth Natural All Purpose Cleanser** to help keep bugs and grime off your windshield.

WOOD DECKS – **Friendly Earth Natural All Purpose Cleanser** works well in pressure washers for outdoor wood like decks. If badly soiled or blackened, dip a stiff brush into solution and scrub. It is great for removing mildew on hot tub wood surfaces. NOTE: Use with added care on unsealed wood, because though an oil emulsifier, **Friendly Earth Natural All Purpose Cleanser** is *water-based*. Dry the wood surface completely with a clean cloth after wiping it with solution

WORKSHOP TOOLS – Spray and wipe. **Friendly Earth Natural All Purpose Cleanser** works exceptionally well for removing unwanted grease and grit!

YARD EQUIPMENT – Spray and wipe.

FRIENDLY EARTH NATURAL CLEANSER

PERSONAL USE

USERS GUIDE

AIR FILTERS – Spray, let sit for 15 minutes, then rinse thoroughly and dry before use.

BODY/BATH WASH – **Friendly Earth Natural Personal Use Cleanser** is the soap of preference for the hypoallergenic, chemically sensitive, and health-conscious individual alike. Use from spray bottle, on a soft cloth, puff ball or from an aerating foamer pump dispenser. Keep out of eyes.

BRONZE – Spray cloth with solution. Wipe item with damp cloth. Dry thoroughly.

BUGS – Before the advent of pesticides, it was common practice to use soap as an insect deterrent because bugs avoid soap! Since **Friendly Earth Natural Personal Use Cleanser** is an oil emulsifier, and insects are oil-based creatures...well, you do the math. Try it yourself - “clean up” your bug problem!

CAR – Fill a bucket with water and add 4-6 ounces of solution. Use a sponge or rag to wash the vehicle, or use a hose attachment containing solution to spray directly on vehicle. Use a sponge to agitate. Rinse clean with a hose. **See more details under AUTO INTERIOR and AUTO EXTERIOR.**

CARPET PRE WASH SPOT TREATMENT – Use **Friendly Earth Natural Personal Use Cleanser** Spray spots in advance of cleaning carpets and rugs.

DRY ERASE BOARDS – **Friendly Earth Natural Personal Use Cleanser** doesn't just move the dry erase ink around – it gets the board white again! Keep a 4 oz. mister and a roll of paper towels handy. Spray directly on the white board, and wipe with fresh paper towel. Apply pressure to older, faded dry erase ink marks, or allow it to soak for a few minutes, repeat process if necessary. *(Note: If difficult to write on board after cleaning, simply rinse with pure water and dry completely – then add an equivalent amount of distilled water to the **Friendly Earth Natural Personal Use Cleanser** when you clean the board again)*

FILTERS, AIR (reusable)– Spray filter, let sit 10-15 minutes, rinse thoroughly.

HAIR SHAMPOO – Great for oily to normal hair. Ideal for keeping children safe from the chemicals in most kid's shampoos. Spray into hair, work into lather, rinse. For more lather, use an aerating foamer pump dispenser. Kids will have a “blast!”

HANDS – Spray hands, rub and rinse. You will love how it rinses clean quickly even in cold water and leaves no residual chemical odor that may interfere with your dining pleasure. Kids love washing their hands with an aerating foamer pump dispenser.

LEATHER – Test on inconspicuous area first for color fastness. Spray solution on a damp cloth and wipe the leather furniture or clothing. For stubborn stains, brushing with a small soft brush may be necessary.

NUTS AND BOLTS – Place in a container and soak in solution for 30 minutes, then wipe or brush clean. (For really tough grease and corrosion, soak in stronger **Friendly Earth Natural All Purpose Cleanser**)

PAINT BRUSHES – With both oil-based and water-based paints, you will love the way **Friendly Earth Natural Personal Use Cleanser** makes clean up easy. Soak brush in solution; rinse with warm water.

PERSONAL HYGIENE – Spray onto washcloth or puffy net bath sponge. Agitate to work into lather. Wash, rinse. Avoid getting spray into eyes. “*Ultra-safe*” for all washing purposes, especially for babies. An aerating foamer pump dispenser creates a smooth, velvety lather for kids of all ages. If you find the soap too strong add a little distilled water. Test various dilutions (with distilled not tap water) to find your preference.

VEGETABLES – Spray, then wipe and rinse. Or, put vegetables in a large bowl, fill with water and spray solution into the bowl, let soak several minutes. Rinse. You will be amazed at what is removed!

VINYL – Spray directly on vinyl, wipe with a damp cloth. Spray on a damp mop or sponge to clean vinyl floors. If heavily soiled, use a nylon brush.

VINYL AUTO TOPS – Spray and gently agitate with a damp terry cloth.

FRIENDLY EARTH NATURAL CLEANSER

LIGHT DUTY

USERS GUIDE

CARPET CLEANING - When using a carpet cleaning machine, use **Friendly Earth Natural Light Duty Cleanser** in the Shampoo applicator or add 4 oz / 120ml of **Friendly Earth Natural INDUSTRIAL STRENGTH Cleanser** to each gallon of water. Use the soap solution only once on the carpet then simply rinse with fresh water, repeat the rinsing till the extraction water is clear. Pre spray heavily soiled spots and areas with **Friendly Earth Natural PERSONAL Cleanser** which has a greater soap content.

DUST – Spray the solution on a clean cloth or paper towel. Use the slightly damp cloth to clean shelves, furniture, ceramics, etc. Follow with a dry cloth.

FLOORS – Sweep or use dust mop to remove loose dirt and grit. For entire floor, use a mixture of 12 ounces / 350 ml of **Friendly Earth Natural INDUSTRIAL STRENGTH Cleanser** per gallon of water in bucket. For "spot treatment" spray **Friendly Earth Natural Light Duty Cleanser** onto a damp sponge or mop, and mop as usual. For hard spots, spray directly on the spot. Rub until it comes off. For tile floors, use a soft brush to agitate the grout. For vinyl flooring, use a terry cloth to agitate the hard to clean spots. Dry with a soft cloth.
NOTE: *By leaving a residue on the floor you will inadvertently repel insects.*

FURNITURE (WOOD) – Spray onto a damp cloth or directly on surface. Wipe with a cloth until dry.

OFFICE EQUIPMENT – Wipe gently with a slightly damp towel (moistened with

FRIENDLY EARTH NATURAL CLEANSER

POLISHED SURFACES

USERS GUIDE

GLASS – Spray **Friendly Earth Natural Polished surface Cleanser** directly onto glass. Wipe clean with rag or paper towel. Polish dry with a dry rag or paper towel.

CHROME – Spray **Friendly Earth Natural Polished surface Cleanser** directly onto chrome. Wipe clean with rag or paper towel. Polish dry with a dry rag or paper towel.

MARBLE & OTHER POLISHED SURFACES – Spray **Friendly Earth Natural Polished surface Cleanser** directly onto surface. Wipe clean with rag or paper towel. Polish dry with a dry rag or paper towel.

FRIENDLY EARTH NATURAL ALL PURPOSE CLEANSER HELPS REDUCE YOUR RISK OF BECOMING CHEMICALLY SENSITIVE!

*People are becoming chemically sensitive in epidemic proportions, silently, daily, one toxic exposure at a time. The most common reason people become chemically sensitive is because of the daily, bit by bit accumulation of toxins in the body. Toxins are absorbed through the skin, inhaled in through the lungs and ingested through the food we eat (most processed foods, meats and produce have pesticides, fluoride, dioxins and other environmental contaminants.) While we can't control many of these chemical exposures, we can control a major source: the common household cleaning products and personal care products that can be replaced by **Friendly Earth Natural All Purpose Cleanser** It is that simple. Start reducing your risk today by getting to know what products are most toxic in your home. Household cleaners and detergents marked with the "signal" words: "**Caution**", "**Warning**" or "**Danger**" are legally defined as poisonous. These three words are legal markers mandated by the EPA to appear on the label, and mean that a product is lethal enough to **kill an adult 180-pound male** in certain specific amounts. They replaced the familiar but no longer seen Skull & Crossbones symbol that was formerly used to designate lethal poisons:*

CAUTION: An ounce to a pint could be FATAL to an adult if ingested.

WARNING: A teaspoon to an ounce could be FATAL to an adult if ingested.

DANGER: A taste to a teaspoon could be FATAL to an adult if ingested.

FRIENDLY EARTH NATURAL ALL PURPOSE CLEANSER IS THE ULTIMATE SOLUTION FOR POISON SAFETY!

*Children cannot read these words of warning! Their bodies also cannot handle what an adult body can handle. Using **FRIENDLY EARTH NATURAL CLEANSERS**, you can replace harmful household products, effectively eliminating risk of accidental poisonings and inhalant abuse. You have an urgent responsibility to protect your children and teenagers from poisons, and not just from accidental poisonings and misuse of toxins. Equally devastating is the unintentional brain, organ and tissue damage from continuous exposure to common household chemicals – ranging from learning difficulties, inability to concentrate and numerous allergic reactions all the way up to permanent Multiple Chemical Sensitivity. Don't just try to hide poisons from your curious toddler or teenager. REMOVE THEM! It can't happen in your home if there aren't any poisons available for them to get into. **Friendly Earth Natural All Purpose Cleanser** cleans so well and is so versatile that you will no longer need to worry about poisons in your home .*
